INDEX TO VOLUME 4

INDEX OF AUTHORS

A

ADAM, K. R., Ginsburg, M., and Weatherall, M.: Dimercaprol and parathyroid extract on distribution of lead, 351

ANDERSON, A. B.: Dimercaprol in lead poisoning, 348

ASHFORD, C. A., Heller, H., and Smart, G. A.: Histamine and pepsin secretion, 153

ASHFORD, C. A., Heller, H., and Smart, G. A.: Antihistamine drugs and gastric secretion, 157

B

BACQ, Z. M., Charlier, R., Philippot, E., and Fischer, P.: Thiocyanate and cardiac output, 162

BALDWIN, Ernest, and Moyle, Vivien: Pharmacology of *Ascaris lumbricoides*, 145

BEDFORD, T. H. B.: Intrathecal injection of penicillin, 329

BLAIR, D. M., Hawking, F., Meeser, C. V., and Ross, W. F.: Clinical trial of miracil, 68

BLASCHKO, H., Bülbring, E., and Chou, T. C.: Tubocurarine antagonists and cholinesterases, 29

BLASCHKO, H., and Holton, P.: Enzymic hydrolysis of triacetin, 181

BÜLBRING, Edith, and Depierre, France: Curarizing compounds on muscle and ganglia, 22

BÜLBRING, E., Blaschko, H., and Chou, T. C.: Tubocurarine antagonists and cholinesterases, 29

BÜLBRING, Edith, and Burn, J. H.: *Nor*adrenaline liberation from suprarenal, 202

BÜLBRING, Edith: Methylation of *nor*adrenaline, 234

BÜLBRING, Edith, and Burn, J. H.: Formation of adrenaline from *nor*adrenaline, 245

BÜLBRING, Edith, Lourie, E. M., and Pardoe, Ursula: Acetylcholine in *Trypanosoma rhodesiense*, 290

BURGEN, A. S. V.: Chromodacryorrhoea response in rats, 185

BURGEN, A. S. V.: Mechanism of anticholinesterase drugs, 219

BURGEN, A. S. V., and Hobbiger, F.: Pharmacology of crotonic betaine esters, 229

BURN, J. H., and Bülbring, Edith: *Nor*adrenaline liberation from suprarenal, 202

BURN, J. H., and Bülbring, Edith: Formation of adrenaline from *nor*adrenaline, 245

BURN, J. H., and Hutcheon, D. E.: Action of *nor*adrenaline, 373

C

CHANCE, M. R. A., and Mansour, T. E.: Action of drugs on the liver fluke, 7

CHARLIER, R., Bacq, Z. M., Philippot, E., and Fischer, P.: Thiocyanate and cardiac output, 162

CHOU, T. C., Blaschko, H., and Bülbring, E.: Tubocurarine antagonists and cholinesterases, 29

CRUZ, W. O., and (the late) Da Silva, E. M.: Thrombocytopenic action of urethane, 132

D

DA SILVA, E. M. (the late), and Cruz, W. O.: Thrombocytopenic action of urethane, 132

DEPIERRE, France, and Bülbring, Edith: Curarizing compounds on muscle and ganglia, 22

DUTTA, N. K.: Atropine, pethidine, procaine, and quinidine, 197

DUTTA, N. K.: Pharmacology of antihistamine drugs, 281

F

FASTIER, F. N., and Reid, C. S. W.: "Constant flow" organ-bath techniques, 109

FASTIER, F. N.: Some *iso*thiourea and guanidine salts, 315

FELDBERG, W., and Lin, R. C. Y.: Cocaine and tubocurarine on intestine, 33

FISHER, P., Bacq, Z. M., Charlier, R., and Philippot, E.: Thiocyanate and cardiac output, 162

FRIEDMANN, E., Marrian, D. H., and Simon-Reuss, Mrs. I.: Antimitotic action of maleimide, 105

G

GADDUM, J. H., and Lembeck, F.: Assay of substances from the adrenal medulla, 401

GARDINER, P. A., Rees, R. J. W., and Robson, J. M.: Intracorneal infection with *M. tuberculosis*, 209

GINSBURG, Michael, and Weatherall, Miles: Dimercaprol and biliary excretion of lead, 274

GINSBURG, M., Adam, K. R., and Weatherall M.: Dimercaprol and parathyroid extract on distribution of lead, 351

GOWDEY, C. W.: N-Methylated iminazolines, 45

GRAHAM, J. D. P.: Actions of sodium azide, 1

GRAHAM, J. D. P.: Potassium and acetylcholine, 308

H

HAWKING, F., Blair, D. M., Meeser, C. V., and Ross, W. F.: Clinical trial of miracil, 68
HELLER, H., Ashford, C. A., and Smart, G. A.: Histamine and pepsin secretion, 153
HELLER, H., Ashford, C. A., and Smart, G. A.: Antihistamine drugs and gastric secretion, 157
HERXHEIMER, H., and Short, R. H. D.: *Iso*propyl-*nor*adrenaline inhalation and mucous membranes, 311
HOBBIGER, F., and Burgen, A. S. V.: Pharmacology of crotonic betaine esters, 229
HOGGARTH, E., Martin, A. R., Storey, N. E., and Young, E. H. P.: Chemotherapy of tuberculosis: thiosemicarbazones, 248
HOLTON, P., and Blaschko, H.: Enzymic hydrolysis of triacetin, 181
HOLTON, Pamela, and Ing, H. R.: Trimethylammonium group in acetylcholine, 190
HOWARTH, Frank: A radioactive spinal anaesthetic, 333
HUNTER, A. R.: Toxicity of trichlorethylene, 177
HUTCHEON, D. E., and Burn, J. H.: Action of *nor*adrenaline, 373

I

ING, H. R., and Holton, Pamela: Trimethylammonium group in acetylcholine, 190

J

JAQUES, L. B.: Toxicity of the protamine, salmine, 135
JUDAH, J. D.: Metabolism and mode of action of DDT, 120

L

LEMBECK, F., and Gaddum, J. H.: Assay of substances from the adrenal medulla, 401
LIN, R. C. Y., and Feldberg, W.: Cocaine and tubocurarine on intestine, 33
LING, H. W., and Wynn Parry, C. B.: Amount of nicotine absorbed in smoking, 313
LOCKETT, Mary F.: Piperidine, pyrrolidine, and pressor concentrates, 111
LOURIE, E. M., Bülbring, Edith, and Pardoe, Ursula: Acetylcholine in *Trypanosoma rhodesiense*, 290

M

MACGREGOR, A. G., and Wood, D. R.: Antihistamine drugs and myocarditis, 216
MADINAVEITIA, J., and Raventós, J.: Antimalarials as adenosine antagonists, 81
MAHFOUZ, M.: The fate of tubocurarine in the body, 295
MANSOUR, T. E., and Chance, M. R. A.: Action of drugs on the liver fluke, 7
MARRIAN, D. H., Friedmann, E., and Simon-Reuss, Mrs. I.: Antimitotic action of maleimide, 105
MARTIN, A. R., Hoggarth, E., Storey, N. E., and Young, E. H. P.: Chemotherapy of tuberculosis: thiosemicarbazones, 248
MEESER, C. V., Blair, D. M., Hawking, F., and Ross, W. F.: Clinical trial of miracil, 68
MOGEY, G. A., and Young, P. A.: Curarizing activity and phenolic substances, 359
MOYLE, Vivien, and Baldwin, Ernest: Pharmacology of *Ascaris lumbricoides*, 145

P

PARDOE, Ursula, Bülbring, Edith, and Lourie, E. M.: Acetylcholine in *Trypanosoma rhodesiense*, 290
PATON, W. D. M., and Zaimis, Eleanor J.: Polymethylene bistrimethylammonium salts, 381
PETERS, R. A., and Wakelin, R. W.: Vesicants and pyruvate oxidase, 51
PHILIPPOT, E., Bacq, Z. M., Charlier, R., and Fischer, P.: Thiocyanate and cardiac output, 162

Q

QUILLIAM, J. P., and Strong, F. G.: Pharmacology of DFP, 168

R

RAVENTÓS, J., and Madinaveitia, J.: Antimalarials as adenosine antagonists, 81
REES, R. J. W., Gardiner, P. A., and Robson, J. M.: Intracorneal infection with *M. tuberculosis*, 209
REID, C. S. W., and Fastier, F. N.: "Constant flow" organ-bath techniques, 109
ROBSON, J. M., Rees, R. J. W., and Gardiner, P. A.: Intracorneal infection with *M. tuberculosis*, 209
ROSS, W. F., Blair, D. M., Hawking, F., and Meeser, C. V.: Clinical trial of miracil, 68

S

SCHILD, H. O.: Competitive drug antagonism, 277
SHORT, R. H. D., and Herxheimer, H.: *Iso*propyl-*nor*adrenaline inhalation and mucous membranes, 311
SIMON-REUSS, Mrs. I., Friedmann, E., and Marrian, D. H.: Antimitotic action of maleimide, 105
SMART, G. A., Ashford, C. A., and Heller, H.: Histamine and pepsin secretion, 153
SMART, G. A., Ashford, C. A., and Heller, H.: Antihistamine drugs and gastric secretion, 157
SPINKS, A.: Estimation of thiosemicarbazones, 254
STOREY, N. E., Hoggarth, E., Martin, A. R., and Young, E. H. P.: Chemotherapy of tuberculosis: thiosemicarbazones, 248
STRONG, F. G., and Quilliam, J. P.: Pharmacology of DFP, 168

T

THORP, R. H.: Optical isomers of amidone, 98
TRIPOD, J.: Anti-nicotine activity and specific antagonisms, 323

V

VANE, J. R.: Pharmacology of paludrine, 14

W

WAKELIN, R. W., and Peters, R. A.: Vesicants and pyruvate oxidase, 51
WALKER, J. M., and Wynn Parry, C. B.: Anaesthetics and hepatectomy, 93
WEATHERALL, Josephine A. C., and Weatherall, Miles: Dithiols, arsenicals, and survival time, 260
WEATHERALL, Miles, and Weatherall, Josephine A. C.: Dithiols, arsenicals, and survival time, 260
WEATHERALL, Miles, and Ginsburg, Michael: Dimercaprol and biliary excretion of lead, 274
WEATHERALL, M., Adam, K. R., and Ginsburg, M.: Dimercaprol and parathyroid extract on distribution of lead, 351
WEST, G. B.: Vasodepressor action of noradrenaline, 63
WISLICKI, Leo: Sympathomimetic amines: pressor and depressor effects, 304
WOOD, D. R., and MacGregor, A. C.: Antihistamine drugs and myocarditis, 216
WYNN PARRY, C. B., and Walker, J. M.: Anaesthetics and hepatectomy, 93
WYNN PARRY, C. B., and Ling, H. W.: Amount of nicotine absorbed in smoking, 313

Y

YOUNG, E. H. P., Hoggarth, E., Martin, A. R., and Storey, N. E.: Chemotherapy of tuberculosis: thiosemicarbazones, 248
YOUNG, P. A., and Mogey, G. A.: Curarizing activity and phenolic substances, 359
YOUNG, Peter A.: Personal error in penicillin assay, 366

Z

ZAIMIS, Eleanor J., and Paton, W. D. M.: Polymethylene bistrimethylammonium salts, 381

SUBJECT INDEX

A

Acetylcholine,
  absence from *P. gallinaceum*, 290
  effect after reduction of potassium, 308
  presence in *T. rhodesiense*, 290
  specificity of trimethylammonium group in, 190
Adenosine, antagonism by antimalarial drugs, 81
Adrenaline,
  assay of, in adrenal medulla, 401
  formation from *nor*adrenaline,
    by minced suprarenal tissue, 234
    by perfused suprarenal gland, 245
Adrenal medulla, assay of substances from, 401
Aleudrine inhalation and mucous membranes, 311
Amidone, pharmacology of optical isomers, 98
Anaesthetics, *see also* Local *and* Spinal
  effect of hepatectomy on action, 93
Anthelminthics, effect on *Ascaris lubricoides* preparations, 145
Anticholinesterase drugs,
  and tubocurarine antagonism, 29
  assay by chromodacryorrhoea response in rats, 185
  mechanism of action, 219
Antihistamine drugs,
  effect on gastric secretion,
    in cats, 281
    in man, 157
  effect on myocarditis in rabbits, 216
  pharmacological properties common to, 281
Antimalarial drugs as antagonists of adenosine, 81
Antimitotic action of maleimide, 105
Antinicotine activity and specific antagonisms, 323
Antituberculous substances,
  intracorneal infection as means of testing, 209
  semithiocarbazones as, 248
Ascaris lumbricoides, pharmacology of, 145
Assay,
  of anticholinesterase drugs, 185
  of substances from adrenal medulla, 401
  personal error in penicillin, 366
Atropine, properties in common with pethidine, procaine, and quinidine, 197
Azide, sodium, actions of, 1

B

Benadryl, effect on myocarditis in rabbits, 216
Benzyl ester of γ-crotonic betaine, pharmacology of, 229

C

Cardiac output, effect of sodium thiocyanate, 162
Cholinesterases,
  hydrolysis of triacetin by, 181
  inhibition of, in relation to tubocurarine antagonism, 29

Chromodacryorrhoea response in rats, use in assay of anticholinesterase drugs, 185
Competitive drug antagonism, 277
γ-Crotonic betaine, pharmacology of methyl and benzyl esters, 229
Curarizing activity
  antagonism by phenolic substances, 359
  of polymethylene bistrimethylammonium salts, 381
Curarizing compounds, actions on skeletal muscle and sympathetic ganglia, 22

D

DDT, metabolism of, 120
Decamethonium iodide, pharmacology of, 381
Dibromoprocaine, studies with radioactive, 333
Di*iso*propylfluorophosphonate, pharmacology of, 168
Dimercaprol,
  and biliary excretion of lead in rabbits, 274
  and lead poisoning in mice, 348
  and parathyroid extract, effect on distribution of lead in rabbits, 351
2-Dimethyl-4:4-diphenylheptan-5-one, *see* Amidone
Dithiols, effect on survival time of rats and mice poisoned with arsenical drugs, 260
Drug antagonism and pA_x, 277

F

Fasciola hepatica, kymographic study of effects of drugs on, 7

G

Gastric secretion in man,
  effect of antihistamine drugs, 157
  effect of histamine, 153
Guanidine salts, effects on smooth and striped muscle, 315

H

Hepatectomy, effect on action of anaesthetics, 93
Histamine, effect on gastric secretion in man, 153

I

Iminazolines, effect of N-methylation, 45
*Iso*propyl*nor*adrenaline, *see* Aleudrine
*Iso*thiourea derivatives, effects on smooth and striped muscle, 315

L

Lead,
  biliary excretion of, effect of dimercaprol, 274
  distribution of, effect of dimercaprol and parathyroid extract, 351
  poisoning in mice, effect of dimercaprol, 348
Liver fluke, kymographic study of effects of drugs on, 7
Local anaesthetics, action on isolated intestine, 33

M

Maleimide, antimitotic action of, 105
Metabolism of DDT, 120
Methyl ester of γ-crotonic betaine, pharmacology of, 229
Miracil, clinical trial of, 68
Myocarditis in rabbits, effects of benadryl and neoantergan, 216

N

Neoantergan, effect on myocarditis in rabbits, 216
Nicotine, amount absorbed in smoking, 313
*Nor*adrenaline,
  action of, 373
  assay of, in adrenal medulla, 401
  liberation from suprarenal gland, 202
  methylation by
    minced suprarenal tissue, 234
    perfused suprarenal gland, 245
  vasodepressor action of, 63

O

Organ bath, constant flow techniques, 109

P

pA_x and competitive drug antagonism, 277
Paludrine, some actions of, 14
Parathyroid extract and dimercaprol, effect on distribution of lead, in rabbits, 351
Penicillin,
  personal error in assay, 366
  tolerance of the dog to intrathecal injections of, 329
Pethidine, properties in common with atropine, procaine, and quinidine, 197
Phenolic substances as antagonists of tubocurarine, 359
Piperidine, pharmacology of, 111
Plasmodia gallinaceum, absence of acetylcholine from, 290
Polymethylene bistrimethylammonium salts, pharmacology of, 381
Potassium, reduction of and action of acetylcholine, 308
Procaine, properties in common with atropine, pethidine, and quinidine, 197
Pyrrolidine, pharmacology of, 111
Pyruvate oxidase system, toxicity of vesicants to, 51

Q

Quinidine, properties in common with atropine, pethidine, and procaine, 197

R

Radioactive spinal anaesthetic, studies with, 333

S

Salmine, toxicity of, 135
Schistosoma haematobium and *mansoni*, clinical trial of miracil in infections with, 68
Sodium azide, actions of, 1
Sodium thiocyanate, action on cardiac output, 162
Spinal anaesthetic, studies with radioactive, 333
Suprarenal gland,
  liberation of *nor*adrenaline from, 202
  methylation of *nor*adrenaline by, 245
Suprarenal medulla, assay of substances from, 401
Suprarenal tissue, methylation of *nor*adrenaline by, 234
Survival times of rats and mice poisoned with arsenical drugs, effect of dithiols on, 260
Sympathomimetic amines, pressor and depressor effects of, 304

T

Thiocyanate, action of sodium salt on cardiac output, 162
Thiosemicarbazones
  in chemotherapy of tuberculosis, 248
  estimation of blood concentrations of, 254
Thrombocytopenic action of urethane, 132
Toxicity of,
  salmine, 135
  trichlorethylene, 177
  vesicants to pyruvate oxidase system, 51
Triacetin, enzymic hydrolysis of, 181
Trichlorethylene, toxicity of, 177
Trimethylammonium group, specificity of, in acetylcholine, 190
Trypanosoma rhodesiense, presence of acetylcholine in, 290
Tuberculosis,
  intracorneal infection with, 209
  thiosemicarbazones in chemotherapy of, 248
Tubocurarine,
  action on isolated intestine, 33
  antagonism by phenolic substances, 359
  antagonists and inhibition of cholinesterases, 29
  fate in the body, 295

U

Urethane, thrombocytopenic action of, 132
Urine, pressor concentrates from, 111

V

Vesicants, toxicity to pyruvate oxidase system, 51
